

Xecs Call 2

PO submission: 23 February 2023
FPP submission: 25 May 2023

Xecs CALL 2 PROMOTION

SUBMIT YOUR RD&I COLLABORATIVE PROJECT OUTLINE FOR THE XECS CALL 2 IN THE FIELD OF ELECTRONIC COMPONENTS & SYSTEMS AND ITS APPLICATIONS

Xecs is a Eureka Cluster specifically designed to accelerate the pace of sustainable industrial innovation in the Electronics Components & Systems (ECS) community. Xecs is building on the successful [Penta](#) and [Euripides²](#) programmes. The intent of Xecs is to create an ambitious international collaboration programme. The resulting RD&I projects will generate high levels of societal and economic impact for all those who participate in a Xecs project. Xecs launches on 29 September at the [Xecs Call 2 Launch Event](#), its [annual Call](#).

1. Who can participate

The Call is open to SMEs, Large Enterprises, Research & Technology Organisations (RTOs), and Academia.

2. Why is Xecs for you

All ECS community sectors are of equally high importance to Xecs projects. Xecs is designed to create the highest Return on Investment for both the industrial partners and public funding bodies.

Learn more [here](#) on the benefits of Xecs.

3. Xecs Call 2 focus areas

Xecs is focused on sustainable digital transformation. Guided by the [ECS Strategic Research and Innovation Agenda](#) prepared by experts gathered by the 3 Industry Associations [AENEAS](#), [EPoSS](#) and [Inside](#) and, Xecs launches its Calls 2 addressing the full Electronics Components & Systems (ECS) value chain and benefiting from the wide dynamic innovation ecosystem stimulated by these industry associations.
